The World Championship in Mustaches and Beards 2011

An Application from the Norwegian Mustache Society Trondheim, Norway

Dear Sirs:

To celebrate the 20 year foundation of the Norwegian Moustache Society of 91 we hereby apply for the arrangement of the World Championship in Beards and Moustaches in the year 2011. Competing categories to be announced later.

As some of you gentlemen might remember our Club hosted a successful World Championship in 1997 and a future arrangement will roughly follow the same scheme although details of course have not been worked out.

From the competition in 97

Some of our club members

Ready for the Celebration Parade in 97

As of to-day our plan for the arrangement is as follows:

TIME.

The Championship competitions will most probably take place May 18, This because May 17 is the Norwegian National Day and the contestants are encouraged to march in the big Celebration Parade which is watched by up to 50000 people. We hope that sights of your impressive moustaches and beards will encourage especially the Trondheim Ladies to attend the competition.

Our club marching in the 17 May Celebration Parades through the years

LOCATION.

The competition is planned to take place in the showroom of the Prinsen Hotel located in the center of the city. Here our Club also has its own Club Room. In the same hotel we intend to offer affordable rooms and food for the competitors. Up to 200 -250 people can be accommodated

Meeting in the clubroom

SOCIAL EVENTS.

The social part of such an event is very important , In addition to a guided tour of the city we plan to offer an evening boat trip on the Trondheim Fjord where refreshment will be served. At this time of the year the nights are almost nonexistent so far north. For those interested, fishing equipment will be available in the boat. For your information the biggest fish caught in the Fjord by a sport fisherman was a Greenland shark weighing 775 kg - a world record.

RETURN TRAVEL.

After the competition you are encouraged to travel by the Coastal Ships - Hurtigruten. either southward to Bergen or northward to Bodoe. We are hoping to offer reduced fares for these trips. In both cities plane and railway connections to the continent are available.

The entire voyage (Bergen - Kirkenes) was described by the National Geographic Society as the most beautiful sea trip in the World.

Hurtigruten crossing the Artic Circle
